Address: Ул. 40 бр. 2 , 12, 1300, Куманово, North Macedonia (Home)

● ABOUT ME

My name is Aleksandar Miloshevski. I am a third-year student of Software Engineering and Information Systems at FINKI. In addition to my studies, I continuously improve my skills by learning new technologies and applying that knowledge to develop real-world projects for clients. My experience is mainly focused on web software development, but I am also open to other opportunities that this profession offers.

● EDUCATION AND TRAINING

01/09/2019 – 10/06/2023 Kumanovo, North Macedonia

GYMNASIUM HIGH SCHOOL EDUCATION – NATURAL SCIENCES AND MATHEMATICS TRACK SOU Gimnasium "Goce Delchev" - Kumanovo

Field of study Natural sciences, mathematics and statistics not further defined | **Level in EQF** EQF level 4

01/10/2023 – CURRENT Skopje, North Macedonia

THIRD-YEAR STUDENT OF SOFTWARE ENGINEERING AND INFORMATION SYSTEMS
Faculty of Computer Science & Engineering

At FINKI, in addition to technical knowledge, I have also developed many soft skills that are essential for almost any job position.

Technologies I have experience with include:

Java Spring Boot, .NET Core, Django, JavaScript (Node.js, Express, React, Next.js), PostgreSQL, Supabase, Docker, Git, Tailwind, and Bootstrap.

In addition, during my fifth semester I had extra engagement at the faculty. I worked as a tutor for laboratory exercises in the course "Introduction to Computer Science," where I gained valuable experience as well as a large number of connections within and outside the faculty.

Website <https://www.finki.ukim.mk/> | **Field of study** Engineering | **Level in EQF** EQF level 6 |

National classification 6 | **Type of credits** ECTS | **Number of credits** 150

● WORK EXPERIENCE

SPORTS COORDINATOR – БЕЛОМ – 01/01/2023 – Current – КУМАНОВО, NORTH MACEDONIA

As a long-term member and successful athlete in the cycling club Velo-M, and a representative of Macedonia with multiple titles, I started taking on administrative responsibilities in the club from 2023, as well as sharing my knowledge with new members.

I had the great opportunity to apply my extensive involvement in cycling during the 2025 European Youth Olympic Festival. This was a historic event for Macedonia, especially for cycling in the country. Together with the organizers, I was responsible for planning race routes, communicating with foreign national teams, registering participants, verifying licenses, organizing meetings, handling logistics, and other related activities.

TEACHING LABORATORY ASSISTANT – FACULTY OF COMPUTER SCIENCE & ENGINEERING

Teaching laboratory assistant with experience in supporting laboratory exercises, guiding students through practical assignments, and assisting in the delivery of course material. Responsible for helping students understand core concepts, providing clarification during labs, and contributing to a structured and productive learning environment. Gained experience in communication, mentoring, and academic support within a university setting.

● **PROJECTS**

Higija Pharmacy Website

E-commerce for a pharmacy

Link <https://aptekahigijastip.mk/>

Planet Interactove

Website for the first Macedonian software company developing ERP solutions for B2B needs. Built using Next.js, Supabase database, and Payload Headless CMS for content management through an admin panel.

Link <https://planet.com.mk/>

Planet VR

Promotional website for a virtual reality center with a fully functional admin panel for content management and validation of sold vouchers. Integrated with CPay for online payments.

Link <https://planetvr.mk/>

Cycling VELO-M website

Website for the cycling club of which I am a member.

Link <https://cyclingvelom.com/>

Boos Media Pro

Web site for marketing agency

Link <https://boostmediapro.mk/>

SportsWear store

E-commerce сајт за продажба на спортска опрема

Link <https://www.sportskaoprema.mk/>

Vibe Digital

Website showcasing my freelance work and projects.

Link <https://vibesite.mk/mk>

CURRENT

Student attendance tracking system for FINKI, designed to record, manage, and monitor student attendance in courses.

I am currently working on developing a student attendance tracking system for FINKI, which will be used by the faculty.

The application is being built using Spring Boot and will be integrated with FINKI services and the CAS (Central Authentication Service) for authentication of students and professors. It will also be containerized and deployed on a FINKI server.

● **CONFERENCES AND SEMINARS**

30/09/2025 – 01/10/2026 Macedonian opera and ballet

AI Tech Summit

Volunteer activity

● **HOBBIES AND INTERESTS**

Rubik's Cube Solving
